MY Greeting's..

I am sure you heard of the conflicted officer involved shooting's that resulted in a civilians fatality. Some case's resulting into criminal charges filed that concluded into the officer's(s) acquittal.

Have you ever wondered, what ever happens to a survivor of a illegal officer involve shooting?

I am what happens in such event. In July 2007, I was walking while Black, accosted by a Reno officer of Nevada, who jumped out of his vehicle, pulling out his sidearm, (after his request to talk to me went ignored, while he was inside the car). He demanded I come to him only to point his firearm at me, which influence me to run. After a short distance of running he began firing while I was on the ground from falling, with my hands up. He stops firing while I was on the ground once I began yelling to stop shooting. He informs a colleague that I never took my hands out of my pockets or seen a gun, only to later allege being drawed upon. Being set up, a recent fight with a civilian was transfix as a bogus robbery to strengthen the shooting case.

Trial lead to me receiving 6-15 Years, to be followed by another 6-15 Years, to be followed by 2-6 Years. All to be served individually.

Now on my sixth Public Pretender, I am in desperate need for financial assistance to properly litigate my appeal. If you can not aid financially you can assist in a crowdfunding platform, such as GoFundMe, or contacting me at the above address.
