Ms. Calling

Please allow me to impose with the upmost and compassionate hellos. I do hope that good karma allows me to find you in Great wholesomeness; mind, body, and soul.

You maybe curious as to why I addressed this letter Ms. Calling. I know in my heart that theres someone for everybody and that is who I am calling. Whether it be a future friend, advocate, and or a personal friend, the time is now that I make myself available to receive that calling.

Without further delay, if I spark an interest that moves you into introducing yourself I have preinquiries. Feel free to intell me what qualities, values, and principles you have that makes up your personality? Whats your pet peeves of do's and dont's? What do you do for a living and is it your calling or a stepping stone to a further objective?

I feel obligated to explain my circumstance. As bad as it looks on paper my charge derived from trumped up allegations to cover up a bad police shooting that resulted to me being hit twice. I advocate through my appeal for my liberation.

With the initial step being taken I will remain intill your response summons.

With Sincerity, Peace.
